

DYNAMO WET/DRY VACUUMS

OWNER'S MANUAL

This equipment is intended for commercial use only.

DYNAMO MODELS 5W, 5WS, 8W, 8WS, 12W, 12WS, 20W, 20WS

BEFORE OPERATING THE MACHINE

Read the manual carefully and completely before attempting to operate the unit. This manual has important information for the use and safe operation of the machine. Keep this manual handy at all times. This machine will ensure years of satisfactory service if operated and maintained according to recommendations in the manual. If additional information is needed, please contact your local distributor or write to:

EDIC
1753 Blake Avenue
Los Angeles, California 90031-1006

All information and specifications printed in the manual and parts list are current at the time of printing; however, because of EDIC's policy of continual product improvement, we reserve the right to make changes at any time without notice.

WARNING

- The machine was designed for use as per instructions and recommendations written in this manual. Any deviation from its proper use or purpose and the consequential damage that may occur is the sole responsibility of the end user.
- Use only manufacturer recommended attachments.
- Disconnect the power cord from outlet before servicing. Do not leave machine connected to an electrical outlet when unattended.
- The cord on this machine should not be used to pull or carry this machine. Keep away from hot surfaces, sharp edges or corners. Do not close door on cord or run machine over cord.
- Do not immerse or use this machine in standing water. Such use may cause electric shock.
- This equipment is not designed to handle or use combustible/volatile substance such as gasoline or kerosene, in, on, or near the machine. The use of such materials will cause an extreme hazard condition.
- To unplug the machine, grasp the plug not the cord. Avoid pulling on cord.
- When using an extension cord, use only a 3 conductor grounding cord—14 ga. wire or heavier.
- Keep openings free of any objects, such as dust, lint or hair, which may reduce airflow. Avoid use if openings are blocked.

- To avoid electric shock, do not expose the unit to rain—store it indoors only.
- Avoid picking up cigarettes, matches, hot ashes, or anything that is smoking or burning.
- Do not expose machine to freezing temperatures.
- All repairs must be done by an authorized EDIC repair station.
- Do not use replacement parts other than those specified in the parts list.

FAILURE TO COMPLY WITH THE ABOVE WARNING INSTRUCTIONS WILL VOID THE WARRANTY.

OPERATING THE MACHINE

1. Dry Operation – Make sure cloth filter is in place.
2. Wet Operation – Remove cloth filter – make sure float assembly is attached to the Vacuum Head.
3. Attach Vacuum Hose and accessory tools.
4. Connect machine to a grounded electrical outlet.
5. Turn on the VACUUM, PUMP and BRUSH switches

MAINTENANCE

- **Be sure to keep the machine filter clean.**
- To clean the cloth filter, brush or shake off loose particles or wash in warm water. Make sure to dry completely before reusing. Failure to do so will result in loss of suction.
- Inspect filter periodically to make sure there are no tears.
- Use defoamer when picking up liquids.
